Neither Party shall be liable for any delay or failure to perform under this Agreement if such delay or failure is: (i) directly caused by acts of God, war, acts of terrorists, explosion, fire, flood, earthquakes, epidemics, acts of civil or military authorities or civil disturbance, and; (ii) could not have been prevented or circumvented by the non-performing Party's reasonable precautions or commercially accepted processes (including through the use of substitute services, alternate sources, work-around plans, the implementation of appropriate security measures or disaster recovery measures) (a "Force Majeure Event"). The Party experiencing any delay or failure as a result of any such Force Majeure Event shall: (i) provide prompt written notice of the actual or anticipated delay or failure to the other Party, and; (ii) use reasonable commercial efforts to either remedy the delay or failure, or implement a plan (including a business continuity and disaster recovery plan) to remedy the delay or failure in a manner which minimizes the disruption to the other Party. The non-performing Party shall not be excused in this Section for any non-performance of its obligations under this Agreement having a greater scope or longer period than is justified by the Force Majeure Event, or the performance of obligations that should have been performed prior to the Force Majeure Event.
